RIVERS AND HARBORS.

House Considers the Bill For Proposed Improvement of Waterways.

ATTEMPT TO RUSH IT THROUGH FAILS

Resolution Adopted to Make Former Senator Gray a Regent of the Smithsonian Institution - Vacant Seats in the Senate.

Washington, Jan. 9.—The house had under consideration the river and harbor bill. Before it was called up some routine business was transacted.

The joint resolution for the appointment of ex-Senator George Gray of Delaware as member of the board of regents of the Smithsonian institution to fill the vacancy caused by the death of the late W. L. Wilson was adopted.

The Burleigh reapportionment bill has passed the house. It provides for increase of membership from 337 to 338 and no state will have less than the present representation.

Mr. Burton, chairman of the river and harbor committee, called up the river and harbor bill. He suggested that general debate upon the bill be limited to three hours, but there was an immediate outcry against the proposition by Mr. Cushman (Wyo.) and Mr. Boreing (Ky.), and all attempts to secure an agreement failed. Mr. Hopkins (Ill.) was called to the chair to preside on the committee of the whole during the consideration of the bill. Mr. Burton took the floor to make his preliminary statement in support and explanation of the measure. The bill was presented to the house, he said, in confidence that no other measure to be considered by the house conferred greater benefits upon the country. The greatest achievement of the century which have closed had been the improvement in transportation facilities.

In the Senate. Vacant seats were numerous in the senate. Many senators are away from the city and some are confined to their homes by attacks of la grippe, which is almost epidemic in the city. The reapportionment bill was received from house. Referred to census committee.

Mr. Lodge (Mass.) offered a resolution calling upon the president, if not incompatible with public interest, to furnish the senate copies of all papers and correspondence in the departments of state subsequent to July 1, 1897, relating to the action taken by that department to obtain an adjustment of the claims of B. R. Henry and other American citizens against Great Britain in regard to conditions in the Fiji Islands, whether any action had been taken in pursuance of a resolution of the committee on foreign relations adopted by the senate June 4, 1896. The resolution was adopted.

Canteen Amendment Tabled. At the conclusion of routine business consideration of the army reorganization bill was resumed, the pending question being upon the committee amendments taking out the house provision abolishing the canteen or post exchange in the army.

By a vote of 34 to 15 the senate laid on the table the committee amendment to the army bill providing for continuance of the present canteen system.

French Steamer Wrecked. Marseilles, Jan. 9.—Dispatches from the village of Faraman, near which the French mail steamer Russle, from Oran, Algeria, stranded Monday in a violent storm with 50 passengers and a crew of 40, say all efforts to reach the steamer failed, owing to tremendous seas. The pilot boats and torpedo boats which have attempted to reach the steamer have been unable to battle with the waves and have returned. The only hope seems to be in the ability of the life savers to throw a line over the Russle, as the wrecked vessel is driven closer to the shore. A signal message at 3 o'clock says all on board were alive, but begging for succor.

Daily on Alger's Statement. Pittsburgh, Jan. 9.—Major W. H. Daly, chief surgeon on General Miles' staff during the Spanish war, has just returned from a hunting trip with General Miles. Concerning ex-Secretary of War Alger's recently published magazine article, Mr. Daly said: "It seems to be a hodge-podge of inaccuracies as to facts and the testimony I gave. That Mr. Alger should reopen the matter at this late day, when everybody, but himself, seems to have considered it a closed incident, is unfortunate. To me it seems another case of a man sitting down without a chair behind him."

Oldest Mason Dead. Chicago, Jan. 9.—John B. Laing, believed to have been the oldest Freemason in the United States, died here, aged 100 years. He joined the order in Scotland in 1820.

STATE INTERESTS.

Minnesota's Governors - McMillan's Message - Assemblies Convened.

St. Paul, Jan. 9.—The legislature met at 10:30 a. m. Speaker Dowling presiding, and heard the addresses of retiring Governor John Lind and the incoming governor, Samuel R. Vansant. The two governors were accompanied by three former governors, H. L. Hubbard, John S. Pillsbury and the venerable Alexander Ramsey, who was the first territorial governor over 50 years ago, and is the only surviving northern war governor, being in office during the opening years of the civil war. John W. Vansant, father of the new governor, was present during the ceremonies, it being also his ninety-first birthday anniversary. Governor Vansant was sworn in by Chief Justice Start prior to reading his message.

McMillan's Biennial Message.

Nashville, Tenn., Jan. 9.—The biennial message of Governor McMillan was presented to the legislature. It shows that the state was never in a more prosperous condition, both from a business and governmental standpoint. The governor recommends more stringent regulations for the assessment of personal property; an appropriation of \$20,000 for the state guard; the purchase of a new home for the blind school and the re-enactment of the cigarette law, which was recently declared unconstitutional. On the question of a state exhibition at the Pan-American and South Carolina Interstate expositions, the governor makes no recommendation, but submits the propositions for such action as the legislature may think the interests of the state require.

West Virginia Assembly.

Charleston, W. Va., Jan. 9.—The legislature of West Virginia met Wednesday in biennial session. Among its duties is the election of a successor to Stephen B. Elkins, against whom there is no opposition for re-election as United States senator. Both branches were organized with the election of the Republican caucus nominees. The inauguration of Governor White does not occur until March 4. In his message Governor Atkinson recommends taxing pipe lines and such licenses on corporations as will in time abolish the state tax on the properties of citizens, an appropriation for the Buffalo exposition, and the establishment of state board of arbitration.

Oklahoma Legislature.

Guthrie, O. T., Jan. 9.—The sixth Oklahoma legislative assembly convened. All caucus arrangements were carried out in organization, the Democrats and Populists organizing the senate and the Republicans the house.

Dufferin Expatriated.

London, Jan. 9.—Amidst cries of "turn him out," hootings and other hostile interruptions, the Marquis of Dufferin and Ava, chairman of the suspended London and Globe Finance corporation, limited, at the extra meeting of the company, succeeded in at least temporarily appeasing the wrath of the shareholders. Lord Dufferin spoke with evident emotion as he explained his personal relations with the corporation, and the result of the meeting was largely a tribute to himself. During the course of his remarks he explained that he was induced to accept the chairmanship at the solicitation of the late Lord Loch and Sir William Robinson. As a result of the explanation of the directors, the shareholders voted an adjournment until Monday, when a scheme for the reconstruction of the concern will be submitted.

American Bowlers.

Chicago, Jan. 9.—At the second session of the American bowling congress consideration of the proposed change in the constitution and general rules in bowling were postponed till Thursday, when the committee on constitutional revision will report. There were 31 new leagues admitted to membership, making the total membership 95. The list includes teams from New York, Chicago, St. Louis, Cleveland, Akron and several other cities.

Kentucky Killing.

Hazard, Ky., Jan. 9.—Reports reached here of a tragedy on Leatherwood creek, 20 miles from town. Reuben Cornett, Jim Singleton and Sam Holbrook met at Melvyn Hart's home. Soon after meeting they got to quarrelling. Reuben Cornett took refuge in Hart's house, Singleton and Holbrook attempted to go in, whereupon Hart killed Jack Cornett with an ax, and Hart's son shot both Holbrook and Singleton, wounding them badly.

Washington, Jan. 9.—It is stated at the White House that the president's illness is no worse. Everything is progressing satisfactorily. He is strictly following the instructions of his physician as to the necessity for his remaining in bed and not attending to any public business.

ORDERED NOT TO SIGN.

Chinese Envoys Not Yet Authorized to Affix the Royal Seal.

ANTI-FOREIGN FEELINGS PREVALENT

Empress Dowager's Advisers Coincide With Southern Viceroy, Who Objects to the Peking Terms Proposed by the Allied Powers.

Peking, Jan. 9.—Li Hung Chang is better. Both he and Prince Ching balked at signing the note when they considered the question until the court was heard from again, explaining that the emperor's edict directing them to put off signing prevented them from using the imperial seal until permission shall have been received, which permission they claim to expect hourly. It is known here among the Chinese that the extreme anti-foreign element is now in power, and that the court favorites now advise the empress dowager. Of these, the best known are Li Chua Lin, a cabinet minister; General Ma and Tung Fuh Siang. Their views coincide perfectly with those of the southern viceroys, particularly with those of Chang Chi Tung, who has threatened to rebel if the note is signed.

Li Hung Chang and Prince Ching both strongly urge the signing of the agreement, and they believe their counsels must prevail. They have pointed out in the strongest possible terms that the very existence of China necessitates the acceptance of the terms of the powers, and that failure on the part of the Chinese to sign may mean the allies will, as soon as the state of the weather makes such a step feasible, send troops over the country, and that parts of the empire heretofore untouched will feel the scourge of war. The Germans have sent two companies of infantry to the vicinity of Ming tombs, where there is trouble.

Not Favored by Germany.

Berlin, Jan. 9.—It is understood that the subject of a lengthy interview United States Ambassador White with the secretary of state for foreign affairs, Baron Von Richtofen, was in regard to the proposal of the United States that the powers withdraw their troops from China as soon as the Chinese government accepts all the articles of the joint note except those relating to indemnity and commercial treaties, these being left for settlement at a conference of the powers at Washington or elsewhere. No final decision in the matter has been announced, but the feeling in diplomatic circles here seems to be opposed to the United States proposition.

British Concern to Control Cramps.

New York, Jan. 9.—A dispatch from London says a circular has been issued privately to the shareholders in the Vickers Sons & Maxim Company, stating that the new concern, in which the company will be associated with the Cramps, will have a capital of £4,000,000, divided into 2,000,000 ordinary shares. There will also be £2,000,000 of 4½ gold mortgage bonds, redeemable in 1930, free of American taxes. The Cramps are to take 1,000,000 preference shares in part payment of the purchase price and the remaining preference shares will be underwritten in the United States. No ordinary shares will be offered to the public, the whole being allotted and fully paid to Vickers Sons & Maxim and the American vendors.

Closing Philippine Ports.

Manilla, Jan. 9.—The military government is considering the question of closing certain ports in the southern islands in order to prevent more effectively communication between the Philippines. The port of Ubay on Bohol island has already been ordered closed, as the garrison stationed there has been withdrawn. The act for the organization of the metropolitan police of Manilla has been passed by the Philippine commission. The force will consist of three companies, selected from the volunteer soldiery.

Speculated Heavily.

Pittsburg, Jan. 9.—Harry K. Deer, 22, messenger and first bookkeeper of the Farmers' and Mechanics' bank of Sharpsburgh, Pa., is missing. It is alleged that his accounts are short \$10,000, although the exact amount can not be determined until an examination of the books has been completed. Deer, it is claimed, has been speculating in stocks and his recent trades have not been profitable. He was regarded as one of the most trustworthy employees of the institution. The police are searching for him.

LONDON UNEASY.

Further Unwelcome News Is Expected. Roberts to Rush Troops.

London, Jan. 9.—Earl Roberts has been closely occupied at the war office and it is believed reinforcements will be ordered on a large scale for the moral effect of convincing Kruger and the Boers in the field that resistance is futile, and that Lord Kitchener's overtures should be accepted. The rapidly with which details of the favorable military operations at Magaliesberg are received excites the suspicion that affairs are not going equally well in other quarters, whence no authentic news can be obtained. General French's cavalry division has again outmaneuvered and defeated Delarey and possibly has driven his forces out of the Wiltwaters Rand district, although that is not quite clear from the dispatches. The mountain strongholds are less important to the Boers than formerly, since they are making little use of artillery, and are depending almost entirely on their rifles and horses. General French apparently has the body of mounted men requisite for pursuit of Delarey's burghers, but they will probably divide and break up into small bands. From Knox's headquarters there is less information than from Magaliesberg, and the fears of military men that something has gone wrong are not dispelled. The scene of operations against Dewet is, however, at a distance from the railway and communications are slow. Defensive operations against the raiders who are roaming at will in the Dutch districts of Cape Colony are conducted on a large scale, but no active measures for following or heading off invaders are reported.

Brush With Bicycle Corps.

Cape Town, Jan. 9.—The cyclist corps, which left here Saturday, occupied Pietermaritzburg Sunday, after a race with the Boers for its possession. The republicans attempted to capture the cyclists, but the latter succeeded in occupying the position, though three of them were killed and 23 wounded. The cyclists retain the pass. Commandeering of horses has commenced in the districts where their owners have refused to sell them to the military authorities.

Don't Want President Invited.

New Orleans, Jan. 9.—At a meeting of the camp of the Army of Tennessee, United Confederate Veterans, the strongest of the Confederate associations in New Orleans, a resolution offered by General Stephen Chaleron, commander of the camp, protesting against the invitation of President McKinley to the Confederate reunion, to be held in Memphis this spring, was unanimously adopted. General Chaleron explained that it was understood the president would be invited to Memphis, and the resolution was intended simply as a warning not to do it.

FLOATING FIREBRAND.

Burning Ship Breaks From Moorings and Spreads Destruction.

THE BEARD'S LAST EXCURSION.

Fire Discovered in the Tunnel of a Colorado Mine—Premature Blast Sends a Miner Out of the World in a Million Pieces.

New York, Jan. 9.—The harbor excursion steambent Idlewild, which was tied up for the winter at "Beard's Farm" dock, at the foot of Richards street, Erie basin, Brooklyn, caught fire and drifted from her moorings into the basin. She collided with the steamship St. Dunstan of Liverpool, owned by Duncan & Gilmore, which also caught fire. The dock at Richards street was already in flames from the burning vessel. Captain Sorley of the St. Dunstan and his crew of 38 men were rescued by small boats. The Idlewild then drifted to another dock at the foot of Van Brunt street, which likewise was set on fire. Beard's stores at Van Brunt street, a 4-story structure containing fute, nitrate of soda and other material, was in flames by this time. The burning nitrate of soda resulted in several explosions. The Idlewild was almost totally destroyed, the St. Dunstan and the two docks badly damaged and two lighters were almost consumed. Loss, \$150,000.

Fire in Mine Tunnel.

Aspen, Colo., Jan. 9.—A party of miners coming off at midnight discovered fire burning about 400 feet from the mouth of the Cowenhoven tunnel. The fire was on the side next to the Smuggler mine, and it is supposed started in the black shale. This is where the great Smuggler fire two years ago originated. Watchmen have been stationed to prevent the spreading of the fire. The Cowenhoven tunnel is the means of draining the great producers of Smuggler mountain. Should the tunnel become damaged seriously it would stop work in a number of the famous producers.

Village's Heavy Visitation.

Pittsburg, Jan. 9.—Wilkesburg, a suburb of this city, was visited by a \$150,000 fire. The loss is well covered by insurance. The fire, which was of mysterious origin, broke out in the basement of the Penn building, occupied by Caldwell & Graham's dry goods establishment. The adjoining building, owned by G. W. Black and occupied by a number of small business firms, also burned.

Car Load of Powder Exploded.

Wilkesbarre, Pa., Jan. 9.—By a collision of a freight train and an empty engine on the Central Railroad of New Jersey, at Laurel Run, a car full of black powder exploded with such force that the report was heard a distance of 20 miles. The crew of the empty engine, seeing a collision was unavoidable, jumped and saved their lives.

Miner Blown to Atoms.

Tucson, A. T., Jan. 9.—By the accidental discharge of a blast in the Malachite mine at Middle Park, Jack O'Brien, a miner, was blown to atoms, and his working partner, Claude Newell, was seriously injured.

Family of Four Suffocated.

New York, Jan. 9.—Fire in a 5-story tenement house caused death by suffocation of five members of the Mora family, on the fifth floor.

New Trial For Bishop.

Frankfort, Ky., Jan. 9.—The court of appeals granted a rehearing in the case of Wallace Bishop, under sentence of death at Covington for the murder of a tramp and the subsequent killing of Policeman Cline while defying arrest, on the ground that the jury should have been instructed on the law of manslaughter as well as of murder. Bishop was a tramp. His family are respectable people, formerly of Illinois, but now of St. Louis.

Broke Up in a Row.

New York, Jan. 9.—The French ball wound up in a general row, in which a number of spectators were arrayed against several policemen, headed by Inspector Thompson. The fight was caused by Inspector Thompson trying to arrest a waiter for compelling a box party to pay for a bottle of wine that had not been opened. The waiter was finally taken in custody, but released, as no one appeared against him.

London, Jan. 9.—Dr. Apaciblo, a Filipino, arrived here from the United States and proceeded to Paris. He is expected to replace Agoncillo, who is Agoncillo's agent here. Dr. Apaciblo was formerly chairman of the Filipino junta at Hongkong. It has been reported that Agoncillo is to succeed Apaciblo at Hongkong.

EVEN A BONUS

No Inducement to American Soldiers to Stay in the Philippines.

[New York World.]

General MacArthur has recommended the payment of a bounty of \$250 to every soldier in the Philippines who re-enlists for another term. And so anxious are the men to return home that no certainty is felt that even this liberal bonus will suffice to keep our standing army in Asia up to the 60,000 mark, at which General MacArthur has said it must be maintained. The terms of the great majority of all our soldiers out there expire on June 30 next, and if they cannot be persuaded to re-enlist the necessity for enlisting new men will have to be faced.

Almost simultaneous announcement is made that the British Government has been forced to multiply by four the per diem pay of its mounted troop in South Africa in order to recruit their constantly depleting ranks. It is thus made plain that to keep 60,000 American troops in Asia and 210,000 British troops in Africa, in wars which the commanders in each case have declared to be over, except as to guerilla and bushwhacking operations, bounties and greatly increased pay for the private soldiers are necessary.

As financial investments wars of conquest are doubtful, even for nations that get their soldiers by compulsory enlistment, as Germany and France do, but for the United States and Great Britain, which have to buy their services in the open market, in competition with the peaceful industries, they are doubly dubious. And ahead of our own venture in Asia there looms besides the specter of another heavy pension roll.

IN THE YEAR 2000.

Some of the Developments Predicted by Prominent Scholars.

[Exchange.]

Among the startling prophecies concerning human developments in the twentieth century, now only a few days distant, are one by President Prichett, of the Boston Institute of Technology, and another by Sir Robert Giffen, the eminent English statistician.

According to the first named scholar the population of the United States will be increased to nearly 95,000,000 in 1910; in 1950 to over 190,000,000. He does not estimate for the year of 2000, but at the rate of growth which his estimate for 1950 assumes—namely, 150 per cent, for the fifty years beginning with 1900—the American people 100 years hence will number 475,000,000.

Sir Robert Giffen says the populations of Europe and of European origin—in which he includes the United States and all other countries settled by descendants of European stock—have increased from 170,000,000 in 1800 to 500,000,000 in 1900. And he predicts that at the end of the coming century (2000) the 500,000,000 will have become 1,500,000,000 or more.

It is not conceivable that the twentieth century will be more warlike and destructive of human life than the nineteenth, which has been more crowded with wars than any previous century of the Christian era. Therefore, the three-fold increase of the populations of Europe and of countries of European origin and sympathetic civilization which has occurred in the present century is not unreasonably anticipated in the next. Meantime, the yellow and black races are not increasing at all. Time and tide fight on the side of "the noble Caucasian."

But try to think of the American people of A. D. 2000—475,000,000 of them! What a Presidential campaign they will have when that year rolls around.

Judge Pugh Confident.

WASHINGTON, Jan. 8.—Representative Pugh's friends say they feel confident that the President will appoint him to the Judgeship created by the Kentucky Judicial division bill.

A Deep Mystery.

It is a mystery why women endure backache, headache, nervousness, sleeplessness, melancholy, fainting and dizzy spells when thousands have proved that Electric Bitters will quickly cure such troubles. "I suffered for years with kidney trouble," writes Mrs. Ebebe Cherley, of Peterson, Ia., "and a lame back pained me so I could not dress myself, but Electric Bitters cured me, and, although seventy-three years old, I now am able to do all my household work." It overcomes constipation, improves appetite and gives perfect health. Only 50c, at J. Jas. Wood & Son's drug store.

GREENWOOD LIBRARY.

Two Hundred and Thirty-six Volumes Added Since Last Report in June.

Statement From Trustees Giving Title of New Books, the Author and Number of Volumes—A Growing Institution.

The "Greenwood Library," established by the City Council in the Public Library on Sutton street a few years ago, is a steadily growing institution and will in the next decade reach very handsome proportions. The fund amounts to \$3,000. This the city holds, paying interest at the rate of 6 per cent., and this interest is turned over to the Trustees of the institution every six months for the purchase of new books. Eventually the library will become one of the largest and most valuable in the State. The present Trustees of the Greenwood Library are Mr. Charles A. Walther, Dr. Thos. E. Pickett and Mr. Robt. A. Cochran. Their report on June 4th, 1900, showed the purchase of 148 books. Since then they have added 236 volumes, and a complete list of the new books was included in their semi-annual report to the City Council this week. For the information of the public a complete list of these new books is here given:

A small item in his own paper lately brought amazing good fortune to Editor Chris. Reitter, of the Saginaw (Mich.) Post and Zeitung. He and his family had the grip in its worst form. Their doctor did them no good. The Chicago letter of inquiries, recently referred to, to Mr. Chas. Phister, was from Dr. Harriet Downing Mackenzie, 1101 Masonic Temple, Chicago. We state this as many readers of the BULLETIN ask for the address. Mrs. Mackenzie asks for information of the family of Chas. Carty, who she thinks is buried three miles out of Maysville, where the old stone church stands. She writes that the Baldwin, Pickett, Mendall and Miner family might give it.

At a special meeting of the stockholders of the C., P. and V. railroad, held in Cincinnati Monday, a vote was taken resulting in favor of purchasing the Columbus and Maysville railroad from Sardinia to Hillsboro. The road is now leased and operated by Hillsboro people, but the purchase will not interfere with the lease. It is the intention of the C., P. and V. management to extend the road from Sardinia to Georgetown and finally to Ripley.

The life of a mule in Africa is of but six weeks' duration, and England is sinking millions of money in their purchase. In Africa they are worth \$300 per head. An agent of Great Britain is now purchasing 50,000 head of horses and mules in Kansas, and the fresh outbreak of hostilities will doubtless make an increased demand. It would therefore seem the part of wisdom among our farmer friends to have these marketable goods ready for the market.—Clermont Courier.

FOR MOTHERS.

The period immediately following child-birth is fraught with many dangers. The strength has been used in the painful ordeal through which the mother has passed and she finds herself helpless and weakened. Many mothers, like Mrs. Ford, date the beginning of their illness from the birth of their child. Indeed the frequent spectacle of a healthy young woman becoming a chronic invalid after motherhood is one of the tragedies of life. All this is unnecessary, when Wine of Cardui is obtainable. It rehabilitates the shattered nervous system, strengthens the organs and ligaments, and re-establishes a healthy, natural condition, saving years of chronic sickness and suffering. Wine of Cardui taken just before confinement will render the ordeal comparatively painless. It will re-enforce and strengthen the organs for their work. For every trying crisis in a woman's life, Wine of Cardui is the medicine to take. Ask your druggist for Wine of Cardui and take no substitute. If one is offered send \$1.00 for a bottle to the Chattanooga Medicine Company, Chattanooga, Tenn.

WINE OF CARDUI

Clarkson, Ark., July 20, 1899.
After my baby was born I took the whites and falling of the womb, and was in a very dangerous condition. I read one of your home treatment books, and commenced to treat myself with Wine of Cardui and Black-Draught. I am thankful for what the medicine did for me, and I am now in better health than I have been for a long time.
Mrs. MARGARET FORD.

And all kindred complaints, due to an excess of uric acid in the blood. It accomplishes its wonderful results first, by purifying the blood and counteracting the existing poisons; second, by toning up the kidneys, liver and stomach, and thus enabling them to dispel all foreign and unnatural secretions. Don't delay. At this time of the year everything is conducive to these distressing and treacherous diseases. At the first symptom take this famous medicine. You will find it almost miraculous in its action and positive in its good results.

Clay Clement to night.

Clay Clement has been known for many years as a clever and careful actor, but in the study and execution of a new kind of German character he has earned high distinction. "The New Dominion," still more adding to his credit, is his own play and its dialogues of exceptionally witty and pointed character. The plot is a simple one, the character really carrying the interest and carrying it so well that every act seemed to be followed with increasing attention. Tickets on sale at Nelson's.

A curious accident occurred recently in a feather bed factory in New York. The feathers got so whirling so rapidly that the friction set them on fire.

Church statistics for the ten years closing the century, as condensed by the Chicago Inter-Ocean, show that every Protestant denomination in the United States, except the Dutch Reformed Church, the Cumberland Presbyterian, the German Baptist, Seventh Day Baptist, the Universalist and the Free-Will Baptist, made considerable gains in membership during the ten years. The Christian Church shows the most remarkable growth.

We Sold About Eight Hundred Rods

OF AMERICAN WOVEN WIRE FIELD FENCE

Tuesday, the 8th instant—a pretty good record for one day, hey? This goes to prove that farmers recognize a really good thing when they see it. The great demand for this fence of late has caused the factories to be run night and day, and there has been some delay in filling a big order we sent in some time ago. However, word has just been received that the shipment is on the way, and its arrival will enable us to supply purchasers on short notice. First come, first served.
